★ ***A Precision Tune-Up is Your  
Air Conditioner's Best  
Friend ...***

During the year, your air conditioning system accumulates dust and dirt, making it less efficient and costing you additional money in utility bills.

***Why You Should Take Advantage of This Special***

Hot, humid summer weather will soon be upon us. Before you know it, you're going to be running your air conditioner longer and more frequently. Don't you want your air conditioner to perform at its best and keep your home cool? Don't you want it to run efficiently and save you money? And don't you want to be assured that it's not going to go on the fritz during the middle of a heat wave or when you have company?
